1. This list sets out the eligible offset programmes and methodologies under the applicable domestic laws, regulations and administrative frameworks of both Singapore and Papua New Guinea, and that meet the requirements of Article 5 (Environmental Integrity).

2. Notwithstanding that pre-approval has been granted to the methodologies listed above, the Parties will assess the applicability of these methodologies against its applicable domestic laws, regulations and administrative framework, in accordance with the process set out in Stage A (Submission and processing of project application to the Joint Committee) of **Annex B**.

3. If a methodology listed in this Annex has been suspended or formally placed under review by the relevant offset programme at the time the project applicant submits the application for authorisation of a mitigation activity, either Party may regard that methodology as being ineligible to qualify as a pre-approved methodology under this Annex and thus refuse to authorise a mitigation activity on that basis.

4. If the project applicant is not using the latest version of a methodology listed in this Annex at the time the project applicant submits the application for authorisation of a mitigation activity, either Party may regard that methodology used as being ineligible to qualify as a pre-approved methodology under this Annex and thus refuse to authorise a mitigation activity on that basis.
